

**ITAMAR MEDICAL LTD.  
CCPA DATA SUBJECT RIGHTS OVERVIEW**

*Last updated August, 2021*

Itamar Medical Ltd. and its affiliates value the privacy rights of individuals. Under the California Consumer Privacy Act (“CCPA”), California residents have certain rights regarding the processing of their “personal information.” The CCPA defines personal information as information that identifies, describes, or could reasonably be linked with a particular individual or a household. Some examples of personal information include your name, address, email address, IP (internet protocol) address, or passport numbers. We have prepared this overview so you are aware of your CCPA rights.

- **RIGHT TO KNOW AND ACCESS.** The CCPA grants California residents an individualized right to know what personal information we collect, sell, or disclose about them. These information access rights also give California residents the right to obtain a copy of personal information collected about them. If you are a California resident, you have the right to know: (1) the categories of personal information that we have collected about you; (2) the categories of places or sources from which we received such personal information; (3) the business reason why we collect your personal information; (4) the types of companies or people with whom we share or to whom we disclose your personal information; and (5) the specific pieces of personal information that we collected about you during the prior 12 months. Our response to you must be in a readily useable format that allows you to transmit this information to another entity without hindrance. If you are a California resident, once we have received your, or your authorized agent’s, verifiable request to know and access your information, we will respond to your request in writing as soon as practicable and in any event generally not more than within 45 days after receipt of the request. We will select a format to provide your personal information that is readily useable and should allow you to transmit the personal information from one entity to another entity without hindrance.
- **RIGHT TO DELETE.** The CCPA grants California residents the right to ask us to delete personal information that we have collected about them. This does not include information collected as protected health information, medical information and nine other categories set forth in Cal. Civ. Code § 1798.105(d). Other information that we may have collected about such individuals may be subject to other laws and may not be deleted. If you are a California resident, once we have received your verifiable request to delete, we will respond to your request or your authorized agent’s in writing as soon as practicable and in any event generally not more than within 45 days after receipt of the request. We will work to delete all personal information that can be deleted subject to the foregoing exceptions.
- **RIGHT TO OPT OUT.** The CCPA grants California residents the right to opt out and stop businesses from selling their personal information. Itamar Medical Ltd. does not sell any personal information that it has collected from or about you

for financial gain, nor do we have any actual knowledge that we sell the personal information of consumers under 16 years of age.

- **RIGHT TO NON-DISCRIMINATION.** The CCPA grants California residents the right to be free from discrimination for exercising any of the CCPA rights. Unless permitted by the CCPA, if you are a California resident and you chose to exercise your CCPA rights, we will not: (1) deny you services; (2) charge you different prices or rates services, including through granting discounts or other benefits, or imposing penalties; (3) provide you a different level or quality of services; or (4) suggest that you may receive a different price or rate for services or a different level or quality of goods or services for exercising such rights.
